

QUADRI

A game by antoine Huchin

1 to 6 players

20 min

Components

48 color cards (Quadri Cards) made up of four colored squares. (Cyan, magenta, yellow and black)

42 objective cards

COMPETITIVE VERSION 2-4 players

Aim of the game

Achieve the shape of the objective cards and score as many points as possible.

Installation

Take 30 objective cards and deal 3 to each player.

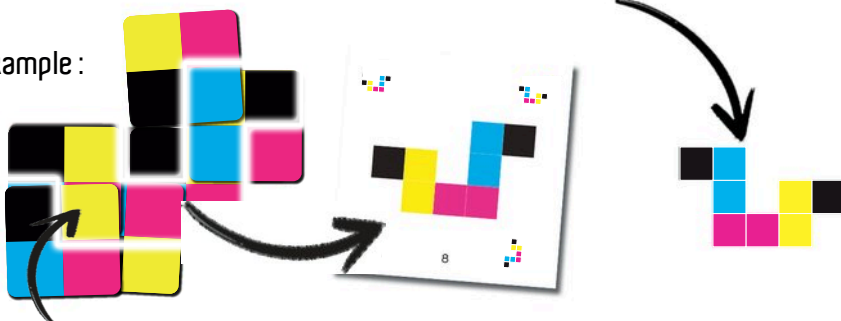

Place a Quadri card face up in the center of the table.

Place the objective and Quadri card decks face down on one side of the table..

Playing the game

On their turn, the active player draws a Quadri card and places it face up in the centre of the table according to the following rules : This Quadri card must cover at least 1 and at most 3 coloured squares of one or more cards already placed. At any time, even if they are not the active player, a player may notice that one of their objectives has been achieved. The objective card is gained and placed face up in front of the player. The player must then draw a new objective, in order to have 3 in their hand again . Objectives can be achieved mirrored

For example :

By covering the magenta square by yellow square, the player achieves the match objective.

End of the game

When a player draws the last objective card, each player, including this player, must play a last turn. Each player's points are then scored (noted at the bottom centre of each objective card). The player with the most points wins. If there is a tie, the winner is the player who has achieved the greatest number of objectives.

Tips

- 1 - When discovering the game, remove the objectives of value 8.
- 2 - After a few games, you can remove the Objective cards of value 3 and add those of value 8.

COOPERATIVE VERSION – 1 to 6 players

Aim of the game

Achieve 10 objectives with 20 Quadri cards without communicating in any way.

Installation

Draw 10 objective cards with a value of 4 and 5 and place them face up in a circle on the table. These are the objectives common to all players.

Place a Quadri card face up in the center of the table and place 19 others in the deck face down.

Playing the game

On their turn, a player must draw a Quadri card from the deck, placing it with the same rules as those of the competitive version. No communication is allowed between players. Players must flip an objective card achieved.

End of the game

The game is won if all objectives are achieved before the deck is exhausted.

BALL TRAP VERSION – 2 to 4 players

Aim of the game

Eliminate all your opponents by achieving their objectives.

Installation

Deal to each player three objectives cards with a value of 4 and 5. Players must not look at their objectives but must keep them visible to the other players. They must therefore hold them in their hand facing the center of the table.

Playing the game

Players use the same rules as those of the competitive version. As soon as a player's objective is achieved, it is revealed. As soon as a player has no objective card in hand, they must continue to play.

End of the game

The last player to have an objective in hand wins.

Author: Antoine Huchin – **Illustrator:** Frédéric Brogard

Author's thanks: I would like to thank my family, the agitators of the Bocal and in particular Cédric Saillant and Nicolas Bonnaud who helped me create the objectives. Anthony, for the cutting. My son Camille for the Ball-trap version. Thierry for the German. The hundred testers of the operation "les jeux du Bocal". And finally Méline, Christophe and Ludovic, for believing in my game and publishing it. Then the new Creative and Cool team for giving it a second life.
